

# Sachin Sehrawat

Frontend Developer | React & TypeScript | Palwal, Haryana

📞 +91-8307326657 | [sachin@totalwebsolution.in](mailto:sachin@totalwebsolution.in) | [Linkedin](#) | [GitHub](#) | [PortFolio](#)

## SUMMARY

**Frontend Developer (React.js)** passionate about **building responsive, pixel-perfect UIs from Figma designs**. Strong in **JavaScript, TypeScript, Tailwind CSS, and state management (Redux/Context API)**. Eager to contribute to real-world projects in a collaborative team environment...

## TECHNICAL SKILLS

**Frontend:** HTML, CSS, JavaScript, TypeScript, React, Tailwind, Material UI, Framer Motion, Redux, Axios, Tanstack Query

**Other Skills:** Figma, AI Tools, VS Code, Git, GitHub

## PROJECTS

**Note:** Currently Developing a New React application with TypeScript

**My Portfolio** | [Live Demo](#)

**Jun 2025 - Jul 2025**

(Front-end Developer and UI Designer)

**Duration: 28 Days**

**Tech Stack:** React, Tailwind CSS, Framer Motion, Context API, Email Js, AI

- **Designed and built a fully custom, animation-rich portfolio** to leave a strong first impression — with **scroll effects, hover reveals, and motion that reacts to user movement**.
- Features **custom theme controls**: light/dark toggle + custom color, so visitors can personalize their experience.
- **I used AI tools only to improve the clarity of my own written content**, while every section — from layout to transitions — was **crafted from scratch**.

**ShopEase E-Commerce** | [Live Demo](#)

**May 2025 - Jun 2025**

(Front-end Developer and UI Designer)

**Duration: 44 Days**

**Tech Stack:** React, JavaScript, Redux Toolkit, Tailwind CSS, Material UI, TanStack Query, Axios, React Router, React Toastify, React Slick

- **Planned, designed, and developed a high-performance eCommerce frontend from scratch**, merging UI/UX best practices with **scalable React + Redux Toolkit** architecture and **zero-backend** dependencies.
- Engineered advanced **product discovery with debounced search** (300ms delay), **multi-dimensional filtering** (price, rating, stock, brand), and tabbed navigation—**reducing product-find time by 30%**.
- **Delivered a seamless buying flow with a 4-step checkout**, real-time cart/wishlist sync, and dynamic order statuses—streamlining the purchase experience and improving usability.
- Achieved **90+ Lighthouse scores**, **<1s load times**, and **40% fewer API calls** through **performance optimization** with **Tailwind CSS, Material UI, and TanStack Query** caching.

**Click Task – Employee Task Management App** | [Live Demo](#)

**Apr 2025 - Apr 2025**

(Front-end Developer and UI Designer)

**Duration: 20 Days**

**Tech Stack:** React, JavaScript, Tailwind CSS, Context API, React Toastify

- **Designed and developed** a fully responsive frontend-only task management app with custom UI, **role-based login**, and **light/dark mode toggle** using Tailwind CSS.
- Built a demo login system with **pre-filled credentials and developed two dashboards**:
  - **Admin**: assign tasks, add employees, filter/paginate task lists, status-based UI.
  - **Employee**: interactive task cards, status updates (accept/complete), and overdue alerts.
- Managed app-wide state using **Context API** (no Redux), enabling **real-time UI updates** across components and consistent logic flow.
- Integrated React Toastify notifications throughout the app for real-time feedback on task assignments, completions, and employee actions.

## EDUCATION

**Multiple Resources: Online Courses & Self-Study**

**2024 – Still Learning**

★ *Front-End Development Specialization*

*Online Resource*

**Amity University**

**2021 – 2024**

★ *Bachelor of Computer Applications (BCA)*

*Noida, UP*
