SUMMARY

Frontend Developer (React.js / Next.js) passionate about **building responsive, pixel-perfect UIs from Figma designs**. Strong in **JavaScript, TypeScript, Tailwind CSS, and state management (Redux/Context API)**. Eager to contribute to real-world projects in a collaborative team environment...

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind, Material UI, Motion, Redux, Axios, Tanstack Query

Other Skills: Figma, AI Tools, VS Code, Git, GitHub

PROJECTS

Note: Currently Developing a New **Next.js** application with **TypeScript**....!

My Portfolio | [Live Demo](#)

Jun 2025 - Jul 2025

(Front-end Developer and UI Designer)

Duration: 28 Days

Tech Stack: React, Tailwind CSS, Framer Motion, Context API, Email Js, AI

- **Designed and built a fully custom, animation-rich portfolio** to leave a strong first impression — with **scroll effects, hover reveals, and motion that reacts to user movement**.
- Features **custom theme controls**: light/dark toggle + custom color, so visitors can personalize their experience.
- **I used AI tools only to improve the clarity of my own written content**, while every section — from layout to transitions — was **crafted from scratch**.

ShopEase E-Commerce | [Live Demo](#)

May 2025 - Jun 2025

(Front-end Developer and UI Designer)

Duration: 44 Days

Tech Stack: React, JavaScript, Redux Toolkit, Tailwind CSS, Material UI, TanStack Query, Axios, React Router, React Toastify, React Slick

- **Planned, designed, and developed a high-performance eCommerce frontend from scratch**, merging UI/UX best practices with **scalable React + Redux Toolkit** architecture and **zero-backend** dependencies.
- Engineered advanced **product discovery with debounced search** (300ms delay), **multi-dimensional filtering** (price, rating, stock, brand), and tabbed navigation—**reducing product-find time by 30%**.
- **Delivered a seamless buying flow with a 4-step checkout**, real-time cart/wishlist sync, and dynamic order statuses—streamlining the purchase experience and improving usability.
- Achieved **90+ Lighthouse scores**, **<1s load times**, and **40% fewer API calls** through **performance optimization** with **Tailwind CSS, Material UI, and TanStack Query** caching.

Click Task – Employee Task Management App | [Live Demo](#)

Apr 2025 - Apr 2025

(Front-end Developer and UI Designer)

Duration: 20 Days

Tech Stack: React, JavaScript, Tailwind CSS, Context API, React Toastify

- **Designed and developed** a fully responsive frontend-only task management app with custom UI, **role-based login**, and **light/dark mode toggle** using Tailwind CSS.
- Built a demo login system with **pre-filled credentials and developed two dashboards**:
 - **Admin**: assign tasks, add employees, filter/paginate task lists, status-based UI.
 - **Employee**: interactive task cards, status updates (accept/complete), and overdue alerts.
- Managed app-wide state using **Context API** (no Redux), enabling **real-time UI updates** across components and consistent logic flow.
- Integrated React Toastify notifications throughout the app for real-time feedback on task assignments, completions, and employee actions.

EDUCATION

Multiple Resources: Online Courses & Self-Study

2024 – Still Learning

★ *Front-End Development Specialization*

Online Resource

Amity University

2021 – 2024

★ *Bachelor of Computer Applications (BCA)*

Noida, UP
